

SCGOPHCG LEADERSHIP DEVELOPMENT PATHWAY for NURSES ROLE SPECIFIC EDUCATION

Staff Development Nurse (SDN) Workshops for 2024

These workshops are designed to deliver role specific learning opportunities for Staff Development Nurses as part of the **SCGOPHCG Leadership Development Pathway** for Nurses.

The workshops will take place in a group setting and will be facilitated by Nurse Educators. The content will be dynamic, tailored to current events in the hospital and based on contemporary needs; incorporating presentations, group discussions and interactive activities.

Participants can book into each **individual workshop**: each workshop is repeated across both sites (OPH & SCGH).

Learning Objectives:

At the conclusion of the workshop, the SDN will be able to:

- Recognise opportunities for teaching, training and/or learning experiences in their clinical area
- Develop evidence-based strategies that support their learners
- Build confidence in own abilities towards being the local education and training expert
- Understand the importance of applying a framework to problem solving 'real-life' situations affecting the SDN role.

Who should attend?

All acting and substantive Staff Development Nurses working at SCGOPHCG. Not available for those external to SCGOPHCG.

Facilitator:

Patricia Gurney | Nurse Educator | Centre for Nursing Education | SCGOPHCG

Dates & Venues:

Variable dates and venues as noted on the Professional Development calendar.

Cost:	SCGOPHCG SDNs only - free of charge
Registration:	Please email: SCGH CNE Registrations scgh.cne.registratio@health.wa.gov.au Please title your email: 'SDN Workshop booking'
